

DataSheet

Dry Powder fire extinguishers are highly effective and truly multi-purpose. With some impressive fire ratings, they are able to tackle nearly all types of fire, including direct use on live electrical equipment. Unlike foam extinguishers, they can be used on 'running' flammable liquid fires.

COMMANDER EDGE

POWDER FIRE EXTINGUISHERS

Spaces that benefit from having a powder extinguisher on site include workshops, garage forecourts and construction sites. This type of extinguisher isn't suitable for enclosed spaces due to the fact the powder can easily be inhaled and the residue left behind can be difficult to clean up.

Technical Specification	DP6E
Capacity	6kg
Fire Rating	43A 233B
Extinguishing Medium	FUREX S ABC
Working Pressure	15 bar at temp 20°C
Temperature Range	+30-+60°C
Cylinder Material	Steel
Pressuring Gas	Nitrogen

PRODUCT CODE
DP6E

PRODUCT GROUP
CommanderEDGE Extinguishers

DIMENSIONS (mm) (height x width x diameter)
502 x 197 x 160

WEIGHT
9.3kg

- Fully CE marked
- Plastic base for protection
- Corrosion-resistant finish
- Manufactured in Europe
