

Additional protection **NOW AVAILABLE** for the **COMMANDER®** stand

The Commander® Stand is known for its' robust and resilient nature and being the perfect fire extinguisher stand for a number of different applications. To support with those areas with extreme levels of footfall and exposure additional fire extinguisher inserts are now available as an **optional extra** for all 2kg CO₂s, 6ltr/kg and 9ltr/kg fire extinguishers.

Simply place the inserts into the base of the Commander® Stand and add your fire extinguishers!

Available to purchase with the Commander® Stand or as individual inserts to add to an existing Commander® Stand.

Features:

- Reliable and robust ABS plastic material
- Combination of both a matt and gloss finish
- Dedicated area for signage application
- Gripped base to protect floor surface
- Easily combine to make a triple-plus stand offering
- Immediate access to the fire extinguisher
- Suitable for most extinguishers (max 200mm)
- Each insert includes 4 installation screws that are optional to use for added secure holding
